Preface

Welcome to our autumn sale!

We are pleased to present a well filled auction with a range of Swedish and foreign items with a significant collection of Swedish riksdaler coinage.

The pandemic situation worldwide has affected us all, but numismatic and collectible interests have been as strong as ever. We look forward to seeing collectors in person as coin shows and auctions resume in-person attendance in larger groups. We continue to offer live online bidding on our website, and telephone bidding for important items, should you be unable to attend the sale in person.

This auction is featuring a selection of riksdaler coinage with many high grade and rare items such as a 1718 riksdaler with Cleve Arms, a splendid 1559 daler, Duke Karl 1597 daler, daler 1599, riksdaler 1676 and nice examples of Karl XII riksdalers. There is also a selection of ducat coinage with a Karl XI Pomerania 2 ducat 1697 and a Karl XIV Johan 4 ducats 1837 as the highlights. Furthermore there is a nice range of high grade Oscar II and Gustav V coinage. The foreign section shows an array of talers and high grade items from around the world.

We hope that you can find something to add to your collection, and look forward to your participation in the auction remotely, or to see you in Stockholm!

8

- 8 SM 158** 1 daler 1545. 28.56 g. SMB (-cf 23), non-described!). EXTREMELY RARE. This major type variety is described for the first time! The die maker, of the obverse and reverse dies, respectively, has inserted in the surrounding texts as interpunction a particular signum - a very decorative cross consisting of a central ring surrounded by four minor crosses. In the ultimate reference book of Gustav Vasa coins (by T.G. Appelgren, published 1933 and packed with details information and many plates of photographic coins), this aforementioned signum is included on page 30 in the matrix of interpunction signs, BUT with no reference to the date 1545! However, the identical signum appears from the all extremely rare Daler years of 1546, 1547, 1548 (unique copper trial piece) and 1549. Obviously, the mintage was very low for all these dates and with a couple of exceptions, they only are preserved in public museum collections. Detailed study of the Daler piece also reveal signs of a ring in the very strange format of digit 5 in the date. It could signify an attempt to change in the die the original digit 5 to perhaps a digit 9. Appelgren make note of such multi-changed last digit in the dates of the production years of those Dalers. The reason would have been to adjust the date to the year of striking. It could be an explanation that a die made late in 1545 hardly was used and, thus, was put idle until a few years later when it was re-used again. The signum itself is obviously very significant, but it cannot be said with certainty if it represents the signum of the Mint master, the die engraver or perhaps is a secret signum for the provider of the silver to be minted. The coin itself at this auction is a very attractive type coin, over average well struck and with an untouched toned patina including some dirty minor spots.

- 11 SM 190** ½ mark 1543. 5.12 g. SMB 122b. Svartsjö mint. Extremely rare, perhaps the only example in private hands! In the reverse surrounding text, there is the misspelling TRRA (should been TERRA). This type variety is identified in Appelgren corpus on page 125, as number 840. Appelgren knew only one piece, residing in the Royal Coin Cabinet.

The auction specimen is far known the only one preserved outside public collections.

In Roberto Delzanno's MYNTÅRSBOK 2022, it is noted as Extremely Rare. The King's wording (more or less recited from the Bible) on the coins were in latin, starting

1534. In 1543, the fourth version DOMINI EST TERRA ET C(OLEUM) (= JORD OCH HIMMEL ÄRO HERRENS). The coin itself at this auction is a well preserved type coin with clear strike and fine grey patina.

This auction specimen is a very representative collector's item, above average strong strike and with a lovely genuine original grey-violet patina. The coin is an early strike evident by the fine details in strike by unworn dies, both obverse and reverse. Especially the Salvator's ornamental figure is the best the Stockholm era. Please note the rombic form of the radiation from the Salvator's head - a prototype design that was further beautified on Kristina's first riksdaler 1633.

105 SM 351 1 öre SM 1680. 40.97 g. SMB 554. This auction specimen has "everything"! Perfect centering, perfect strike and fully original genuine natural copper tone with sporadic evidence of the red luster in protected areas of design. This is a very impressive example when the roller striking- despite heavy influence of stress in processing and heavy use of mechanical machinery managed to finish such a as close to ever perfect product, nor only to function as a regular "people coin" for heavy circulation duty but- in addition- a beauty by design and harmony! In addition, it is worth observing that the third side of this specimen, the edge and razor sharp rim (made from the punching mechanism) is evidence that this piece has been in caring hands since its very birth (strike). THIS IS AN OUTSTANDING EXTREMELY SELECTED COLLECTOR'S ITEM, BELONGING TO THE ELITE EXCLUSIVE CROWD OF JUST A FEW TOP SURVIVORS OF MANY MILLION MINTED COINS OF THIS TYPE REGARDLESS OF DATE.

Auction conditions

The auction is voluntary and is conducted on behalf of the vendors. The lot shall be sold to the person making the highest bid at a sum equal to the next highest bid plus a fixed increase. If there is only one bid the lot will be sold for the starting price In the event of two identical bids the first bid received has priority.

All bids must be made in Swedish crowns (SEK). All invoices pertaining to auction purchases are made out by AB Philea, the financial and legal counterpart to all buyers and vendors at the auction.

Commission of 21 % is added to the hammerprice for both domestic and foreign customers. AB Philea uses the "Margin scheme" (also known as the "Global System") meaning that no VAT will be specified on invoices. When incurred, expenses for insurance and postage are also added.

Bids made are binding. In the event of bids being presented by persons on behalf of another (agents) the person presenting the bid is liable to satisfy the sales conditions as if it were his own bid. The person presenting the bid is also responsible for errors made by him in when acting as agent at the auction. Similarly, the person presenting the bid is liable for any errors or misunderstandings in the case of unconfirmed bids by telephone or telegraph.

The auction will be conducted with as much care as possible but without any undertaking on our part. We reserve the right to reject persons from the auction and decline bids without giving any reason for doing so. We also reserve the right, in the event of misunderstanding or differences of opinion, to re-offer the goods for auction.

Payment for lots purchased by a bid at the auction shall be made in cash, or against a pro forma invoice. The lots remains the property of the vendors until such time as full payment is made. Payment shall be made within 8 days of the date of invoice. In the event of delay in payment interest is charged at 2 % of the invoiced sum for each month commenced plus a reminder fee of SEK 40. If payment has not been received by us within, at the latest, 30 days after the date of invoice or if the purchaser refuses to pay, we are entitled to sell the lot at the purchaser's expense without giving any further notice. If this occurs the sum received on sale, after deduction of sales expenses, will be deducted from the unpaid debt. Any sum remaining due will be subsequently recovered by legal measures.

Foreign customers will receive pro forma invoices.

Lots are sold "as is" except where other remarks concerning their state have been made in the catalogue. This means, among other things, that defects not visible in photographs or deviations from descriptions of state of individual articles are not regarded as defects. Information regarding grades are our opinion only, and are therefore not grounds for complaints or returns. For collections and accumulations tradesmen are not entitled to make any claims and private consumers rights are limited to those stipulated in Section 9 of the Swedish Consumers Sales Act.

Complaints must be presented within a reasonable time after the purchaser discovered or ought to have discovered the defect, normally within 10 days following the purchaser's receipt of the lot or his having had such opportunity following notification by his post office of the lot's arrival. If a complaint is approved the price of the lot will be repaid to the purchaser plus any postage.

The presentation of verbal bids or auction instructions means that the above conditions are approved.

The auction is conducted and sales made are subject to the exclusive jurisdiction of the Swedish courts and is subject to Swedish law.

Auktionsvillkor

Auktionen är frivillig och sker för inlämnares räkning. Objektet säljs till högstbjudande för näst högsta bud + en fast höjning. Finns endast ett bud säljs objektet till utropspris. Av två lika bud gäller det först inkomna. Underbud accepteras ej.

Alla bud skall avges i svenska kronor. Alla fakturor avseende köp på auktionen ställs ut av AB Philea, org.nr 556326-1949, som är ekonomisk och juridisk motpart för alla köpare på och inlämnare till auktionen.

Köparprovisionen är 21 % på klubbat auktionspris, även för utländska kunder. AB Philea använder sig av vinstmarginalsystemet (VMB), vilket betyder att moms inte specificeras på fakturor. Dessutom tillkommer i förekommande fall porto- och försäkringskostnader.

Avgivet bud är bindande. Vid bud för annans räkning ansvarar budgivaren för att försäljningsvillkoren uppfylls som om det vore eget bud. Budgivaren är också ansvarig för av honom gjorda fel i auktionsuppdraget. Likaså vid obekräftade telefon- och telegrambud är budgivaren ansvarig för ev. fel och missuppfattningar.

Auktionsuppdrag behandlas så omsorgsfullt som möjligt, dock utan några andra åtaganden från firmans sida. Vi förbehåller oss rätten att avvisa personer från auktionen och avböja bud utan att ange skäl härfor. Vi förbehåller oss rätten att vid missförstånd eller menings-skiljaktigheter utlysa ny budgivning.

Betalning sker kontant eller mot förskottsfaktura. Objektet förblir säljarens egendom till dess full likvid erlagts. Likvid skall erläggas inom 8 dagar från fakturadatum. Vid senare betalning debiteras ränta med 2 % per påbörjad månad räknad på fakturabeloppet, samt kravavgift med 40 kronor. Har likvid ej inkommit 30 dagar efter fakturadatum eller om köparen vägrar att betala, kan objektet utan ytterligare meddelanden säljs på köparens bekostnad.

Utländska kunder erhåller förhandsfaktura.

Objekten säljs i befintligt skick såvida inte andra utfästelser om deras beskaffenhet har gjorts i katalogen. Detta innebär bl.a att som fel betraktas i första hand på foto ej synliga defekter eller avvikelse från beskrivning av enstaka objekt. Uppgifter om kvalitetsbeteckningar är endast vår uppfattning, och utger i sig ej underlag för reklamation. Beträffande samlingar eller partier innebär det att näringsidkare inte äger rätt att göra några påföljder gällande och att den enskilde konsumentens möjlighet är begränsad till vad som stadgas i konsumentköplagens § 9.

Reklamationer skall göras inom skälig tid efter det att köparen upptäckt eller bort upptäcka felet, normalt inom 10 dagar efter det att köparen har mottagit objekten eller haft möjlighet att göra detta genom avisering om objektens översändande från dennes postanstalt. Vid godkänd reklamation återfår köparen auktionspris plus 21 % och ev. porto.

Avgivande av muntliga bud eller auktionsuppdrag innebär godkänning av ovanstående villkor.
