Preface

Welcome to our second Spring sale of 2022!

This auction offers a good range of Swedish coins with an extensive selection of daler and riksdaler coinage as well as a variety of ducats from the reign of Fredrik I and onwards. We note high grade examples of Duke Karl 1 daler 1597, Karl X Gustav 1 riksdaler 1654, Karl XII 1 riksdaler 1707 as well as low mintage issues such as 1 daler 1598, Karl XI 1 riksdaler 1676 and many more. There is a variety of Swedish and Finnish banknotes on offer, several scarce to find on the market.

In the foreign section we note a range of Swedish-Norwegian period of Norwegian coinage with several more scarce types and high grade items, as well as a range of ancient coins. There is a small selection of rare Chinese coins and a small offering of rare Cyprus high grade items, as well as a range of taler coinage, including a beautiful 2 taler 1657 of Saxony. We are also offering an interesting and extensive collection of Finnish and Russian militaria and medals.

As always we offer live online bidding for the auction, as well as participation in the auction room in Stockholm. Phone bidding can be arranged at our discretion for important lots.

We are looking forward to the numismatic events coming back to more of normality, first resuming with Frimynt in Helsingborg on 7 May. All of our team look forward to seeing you there, and we offer limited viewing of lots that can be brought by request.

We look forward to your participation, in the room in Stockholm, or from afar!

1+-01 4 000

Denna mynttyp har historiskt spelat en stor roll under Christian II:s invasion av Sverige, och motståndsmännen ledda av Gustav Ericson, som sedermera blev Sveriges kung. Den dramatiska och oväntade invasionen för ca 500 år sedan skedde med hög hastighet och danskarna hoppades "köpa Sverige för dåligt försilvrade koppar". Det finns teorier om hur man bäst separerar de av danskarna, i Malmö, präglade klippingarna och de svenskpräglade med identisk design, slagna i Västerås, Hedemora och Söderköping. Den relativt kvadratiske format som föreliggande två exemplar har är noterbart lik de av Gustav Vasa senare präglade klippingarna. De danska ursprungliga präglingarna är oftast mer rektangulära och visar vanligen en större del av porträttet och övriga designelement. Analys av en samtida skatt funnen i Västerås Slott visar att det går att koppla identiska stampar till präglingen i Malmö och många av de exemplar som återfinns i fyndet, som i all väsentlighet bör vara präglade i Västerås. Att danskarna tog med sig stamparna för vidare produktion på svensk mark förefaller troligt, men när de blivit utmanövrerade föll stamparna i svenskarnas kontroll, vilka fortsatte att slå klippingar med låg silverhalt, och fortsatte att skylla de dåliga silvret på danskarna, för att bygga upp ytterligare svenskt motstånd. Som historien visar hade Gustav Ericson framgång med sina metoder, och lyckades år 1523 bli vald till kung. De här utbudna exemplaren skall ha inhandlats från mynthandlare Harry Glück någon gång på 1950-70-talet.

This type coin historically played its part of the Danish invaders of Christian II, and the soon to appear on the scene rebels led by Gustav Ericson, later to be crowned king of Sweden. The slippery and totally dramatic and traumatic events of Danish invaders with sudden ambitions to conquer Sweden and "buy Sweden for lousy silvered coppers" happened approximately 500 years ago. Speculations goes how to determine and separate the typical Danish issue first struck in Malmö from those struck with identical design at Swedish locations; Västerås, Hedemora and Söderköping. The rather squarish format of this specimen, and the following one, is noted for their resemblance with the - also squarish - klippes which Gustav struck in his own late rebellion period. The Danish originals are more frequently noticable rectangular in shape and showing more motives on the struck specimens. Analysis of a treasure find in Västerås Castle demonstrates that strikes from identical dies can be linked to both specimens struck in Malmö and plenty of specimens survived in this particular treasure find. While the Danes brought dies to Sweden and struck also on Swedish territory seems likely, but when they were out-manoeuvred, the dies fell in control of the Swedes, who continued the low base coin production and blaming the bad - coppery - klippes on the Danes, building up momentum of Swedish resistance. As history shows, Gustav Ericson was successful and gathered majority being elected king in 1523. This and the following specimen are reportedly bought from Harry Glück coin dealership in the 1950-70s.

- 30 SM 75 var** 1 öre 1590. 2,05 g. Stockholm. Den sista siffran i årtalet har först slagits med en upp-och-nedvänd 9:a, så att den läses som en 6:a. När gravören uppmärksammat sitt misstag har han skickligt handgraverat en tjock cirkel såsom en nolla över sista siffran, för att så kunna läsas som "1590". Gravörens förfarande medför dock att denna nolla är graverad ännu djupare in i stampen, och därför syns även den ursprungligt felaktigt punsade upp-och-nedvända siffran "9"/6. Detta exemplar är det första och så långt ENDA KÄNDA av denna spektakulära variant, med överprägling av årtal som först lästs som "1596" - under Sigismunds regeringsperiod - istället för det avsedda året "1590" (jämför med nästa lot). Dr. Astley Levins corpusverk över Johan III:s mynt och deras varianter (Numismatiska Meddelanden XI, 1887) listar inte denna betydande variant. En NYUPPTÄCKT VARIANT! SMB 78 var.

1 öre 1590. 2.05 g. Stockholm. The last position of the date was first punched with an up-side-down used "9" making it a "6". When the die engraver realised his mistake, he cleverly tried to cover it up by hand-engraving a thick circle that makes for "0", the actual year to read "1590". This engraver's exercise meant that the "zero" is engraved even deeper than the originally and wrongly punched up-side-down digit "9"/6, causing an obviously higher relief consisting of the "zero" on top of the lower relief up-side-down "9"/6. This specimen is the first and so far ONLY KNOWN specimen of this dramatic still curious year, first to be read "1596" - implying the future year when Sigismund were at reign - rather than the intended year "1590" (compare the next lot). The corpus of Johan III coinage and their varieties as published by Doctor Astley Levin in 1887 (Numismatiska Meddelanden XI) did not list this significant variety. An interesting DISCOVERY PIECE! SMB 78 var.

Detta exemplar har en stil som möjligen kan kopplas till stampar använda för de samtida förfalskningarna producerade i Holland med låg silverhalt för att försöka betala av handelsskulder som de bägge länderna hade till andra handelsparter. De följande åren var det ett stort och uppmärksammat rättsfall i Stockholm angående förhållandena kring denna skandal om falskmyntning. Ett intressant och betydelsefullt mynt med en historisk betydelse! Det här utbudna exemplaret har en ovanligt hög silverhalt, till skillnad från de "riktiga förfalskningarna" som är i ren koppar med försilvrade yta. Man kan förmoda att tidiga exemplar med 10-20 procent silverhalt kan ha myntats för att visa produktionskvalitet och som prov att sätta i circulation, för att sedan bana väg för stora mängder av de försilvrade kopparförfalskningarna. Detta mynt härstammar från köp över disk från Harry Glück, Stockholm, troligen på 1960-70-talet. På den tiden, då Harry Glücks värderingsguide för svenska mynt var standardverk togs alltså exemplar av klippingar 1591 upp med både hög och låg silverhalt som separata listningar, varvid den med högre silverhalt sade vara sällsynt. I modern tid har ett mindre antal nyupptäckta exemplar uppträtt i marknaden, men exemplar med hög silverhalt fortsätter att förekomma sparsamt.

Of style possibly linked to dies originating from contemporary Dutch (!) base silver minting to clear debts between trade partners of both countries. The following years, there was a significant court case in Stockholm about circumstances and scandals related to this event. An interesting and significant coin with a story to tell! Nevertheless, this particular specimen has an unusual high silver content, unlike the "real fakes" of pure copper and with only silvered surfaces. One can speculate that specimens from this "first period" of 10-20 percent silver alloy were made for demonstration and test purposes in order to make a convincing case and pave the way for the large amount of faked copper coins with just surfaces of silvering, easily rubbed at the slightest circulating. This particular coin originates from an over-the-counter transaction with coin dealer Harry Glück, Stockholm, likely in the 1960-70s. At that time, the leading coin manual and valuation guide book for Swedish coins was "HG" where they always separated the high and low silver content issues, claiming the first category as rare. Through recent decades of coin auctions and in coin trade, only a few more specimens have appeared.

Pågående forskning försöker bestämma vart denna typ myntats, samt vad detta kan betyda; myntmästarmärke, gravörsignum, tecken för silvrets ursprung, tecken för myntort, eller annan konstnärlig förklaring. Ett naturligt exemplar med välpräglade detaljer och fräsch plants som är helt rund. Bra originalpatina, någon svaghet i mitten av detaljerna, men i sin helhet ett utmärkt exemplar! SMB 99.
 1 öre 1610. 1.52 g. Göteborg (?). With artistic punctuation "tulip" or "dagger" in both sides of the legends. Ongoing research tries to determine location where this type has been minted, as well as what the interpunction may represent; sign of mint master, sign of engraver, sign of origin of silver or supplier of silver, sign of mint location, or other, artistic explanation. A totally natural specimen with very strong struck details and fresh and fully round metal planchet. Fine original patina. 113 SM 121b jfr 2 mark 1670. 9.88 g. Stockholm. Intressant exemplar slaget i koppar med originalstamper. Det finns ingen officiellt utgiven myntning av 2 mark i koppar, varför det kan antas att det var någon på myntverket som antingen testade utrustning, eller medvetet försökt tillverka en förfalskning. Ett likartat kopparavslag med originalstamper till 1 mark 1649 såldes på Misab auktion 7, lot 1093. För vidare läsning se www.numismatik.se/2artiklar/2-mark-koppar/2M.php för en artikel om det här utbudna exemplaret.

2 mark 1670. 9.88 g. Stockholm. Interesting piece struck in copper with original dies. There was no officially recorded mintage in copper, and hence it can be assumed that it is someone at the mint trying out equipment, or trying to make a spurious/fake issue. A similar copper strike with original dies of a 1 mark 1649 was sold at Misab auction 7, lot 1093. Please see www.numismatik.se/2artiklar/2-mark-koppar/2M.php for an extensive article in Swedish on this piece.

Auction conditions

The auction is voluntary and is conducted on behalf of the vendors. The lot shall be sold to the person making the highest bid at a sum equal to the next highest bid plus a fixed increase. If there is only one bid the lot will be sold for the starting price. In the event of two identical bids the first bid received has priority.

All bids must be made in Swedish crowns (SEK). All invoices pertaining to auction purchases are made out by AB Philea, the financial and legal counterpart to all buyers and vendors at the auction.

Commission of 21 % is added to the hammerprice for both domestic and foreign customers. AB Philea uses the "Margin scheme" (also known as the "Global System") meaning that no VAT will be specified on invoices. When incurred, expenses for insurance and postage are also added.

Bids made are binding. In the event of bids being presented by persons on behalf of another (agents) the person presenting the bid is liable to satisfy the sales conditions as if it were his own bid. The person presenting the bid is also responsible for errors made by him in when acting as agent at the auction. Similarly, the person presenting the bid is liable for any errors or misunderstandings in the case of unconfirmed bids by telephone or telegraph.

The auction will be conducted with as much care as possible but without any undertaking on our part. We reserve the right to reject persons from the auction and decline bids without giving any reason for doing so. We also reserve the right, in the event of misunderstanding or differences of opinion, to re-offer the goods for auction.

Payment for lots purchased by a bid at the auction shall be made in cash, or against a pro forma invoice. The lots remain the property of the vendors until such time as full payment is made. Payment shall be made within 8 days of the date of invoice. In the event of delay in payment interest is charged at 2 % of the invoiced sum for each month commenced plus a reminder fee of SEK 40. If payment has not been received by us within, at the latest, 30 days after the date of invoice or if the purchaser refuses to pay, we are entitled to sell the lot at the purchaser's expense without giving any further notice. If this occurs the sum received on sale, after deduction of sales expenses, will be deducted from the unpaid debt. Any sum remaining due will be subsequently recovered by legal measures.

Foreign customers will receive pro forma invoices.

Lots are sold "as is" except where other remarks concerning their state have been made in the catalogue. This means, among other things, that defects not visible in photographs or deviations from descriptions of state of individual articles are not regarded as defects. Information regarding grades are our opinion only, and are therefore not grounds for complaints or returns. For collections and accumulations tradesmen are not entitled to make any claims and private consumers rights are limited to those stipulated in Section 9 of the Swedish Consumers Sales Act.

Complaints must be presented within a reasonable time after the purchaser discovered or ought to have discovered the defect, normally within 10 days following the purchaser's receipt of the lot or his having had such opportunity following notification by his post office of the lot's arrival. If a complaint is approved the price of the lot will be repaid to the purchaser plus any postage.

The presentation of verbal bids or auction instructions means that the above conditions are approved.

The auction is conducted and sales made are subject to the exclusive jurisdiction of the Swedish courts and is subject to Swedish law.

Auktionsvillkor

Auktionen är frivillig och sker för inlämnarens räkning. Objektet säljes till högstbjudande för näst högsta bud + en fast höjning. Finns endast ett bud säljes objektet till utropspris. Av två lika bud gäller det först inkomna. Underbud accepteras ej.

Alla bud skall avgas i svenska kronor. Alla fakturor avseende köp på auktionen ställs ut av AB Philea, org.nr 556326-1949, som är ekonomisk och juridisk motpart för alla köpare på och inlämnare till auktionen.

Köparprovisionen är 21 % på klubbat auktionspris, även för utländska kunder. AB Philea använder sig av vinstmarginalsystemet (VMB), vilket betyder att moms inte specificeras på fakturor. Dessutom tillkommer i förekommande fall porto- och försäkringskostnader.

Avgivet bud är bindande. Vid bud för annans räkning ansvarar budgivaren för att försäljningsvillkoren uppfylls som om det vore eget bud. Budgivaren är också ansvarig för av honom gjorda fel i auktionsuppdraget. Likaså vid obekräftade telefon- och telegrambud är budgivaren ansvarig för ev. fel och missuppfattningar.

Auktionsuppdrag behandlas så omsorgsfullt som möjligt, dock utan några andra åtaganden från firmans sida. Vi förbehåller oss rätten att avvisa personer från auktionen och avböja bud utan att ange skäl härfor. Vi förbehåller oss rätten att vid missförstånd eller meningskiljaktigheter utlysa ny budgivning.

Betalning sker kontant eller mot förskottsfaktura. Objektet förblir säljarens egendom till dess full likvid erlagts. Likvid skall erläggas inom 8 dagar från fakturadatum. Vid senare betalning debiteras ränta med 2 % per påbörjad månad räknad på fakturabeloppet, samt kravgift med 40 kronor. Har likvid ej inkommit 30 dagar efter fakturadatum eller om köparen vägrar att betala, kan objektet utan ytterligare meddelanden säljas på köparens bekostnad.

Utländska kunder erhåller förhandsfaktura.

Objekten säljs i befintligt skick såvida inte andra utfästelser om deras beskaffenhet har gjorts i katalogen. Detta innebär bl.a att som fel betraktas i första hand på foto ej synliga defekter eller avvikelser från beskrivning av enstaka objekt. Uppgifter om kvalitetsbeteckningar är endast vår uppfattning, och utger i sig ej underlag för reklamation. Beträffande samlingar eller partier innebär det att näringsidkare inte äger rätt att göra några påföljder gällande och att den enskilde konsumentens möjlighet är begränsad till vad som stadgas i konsumentköplagens § 9.

Reklamationer skall göras inom skälig tid efter det att köparen upptäckt eller bort upptäcka felet, normalt inom 10 dagar efter det att köparen har mottagit objektet eller haft möjlighet att göra detta genom avisering om objektens översändande från dennes postanstalt. Vid godkänd reklamation återfår köparen auktionspris plus 21 % och ev. porto.

Avgivande av muntliga bud eller auktionsuppdrag innebär godkännande av ovanstående villkor.
